East Granby, Conn. (Feb. 1, 2017) – Joining Technologies, Inc. will be displaying its all-new branding look featuring a brand-new booth at the MD&M West show. The show will be held in the Anaheim Convention Center, Anaheim, Calif. from Feb. 7 through Feb. 9.

Show visitors are invited to stop by Joining Technologies' booth – # 3198 – to say hello and check out the new look. Plus, they're invited to enter for a chance to win a \$50 gift card for Starbucks each day.

The Joining Technologies' booth is the place to be for visitors with medical device projects who want to learn more about precision laser, electron beam or gas tungsten arc welding technologies, seamless supply chain management or expert machining services.

Based in East Granby, Conn., Joining Technologies is an innovator in precision welding processes. The company's engineering talent continues to develop economical solutions for joining metal welding components primarily in the medical device, sensor, aerospace, defense, energy including gas and oil, and firearms industries.
